T.H.E Keene NEWSLETTER

January 2021

Hello Residents, Families and Friends.

As I think back on 2020, I remember all the plans made. The months activity calendars and events planned, then cancelled, and then re invented into parties of one. Somehow even though 2020 was full of unfortunate twists, turns, flips and flops I find myself thankful for the new perspectives my experience as a nursing home activity director amid a pandemic has brought me. It was a bit of a challenge to oversee "fun" while in full PPE, social distancing and without the assistance of the family members and volunteers I had grown to depend on. But nevertheless, I find myself feeling thankful for all the knowledge I would have never gained in the year I had planned and I have a much greater appreciation for several things I totally took for granted. I am sure you can agree that 2020 has given us all new appreciation for mask less smiles, in person hugs, toilet paper and of for communication devices that allowed us to visit when we could not. We are a stronger and more creative people because of the challenges brought to us this year.

In closing, I hope that 2021 will be a year that brings us all closer together. But remember that no matter what comes we have a friend in Jesus and He patiently waits for an invitation to walk with us. Wishing each of you health and happiness. Until we can meet again please keep safe!

Happy New Year!

Mandy Smith THE Activities

Life is what happens to us while we are making other plans.

- Allen Saunders
